

S7000

DLIVE REMOTE CONTROL SURFACE

The S7000 is a 32 fader dLive S Class remote control Surface with two 12" capacitive touchscreens.

The S7000 can control any MixRack / Mainframe. Up to 4 control Surfaces can be connected to a single MixRack / Mainframe.

32 faders & 32 rotaries are freely assignable in 6 layers on the surface, giving 192 "control strips."

The S7000 can be connected with a single CAT5e cable or a dual redundant mode Cat5e cable to the Mixrack/Mainframe. Two 128x128 channels option slots are available on the back.

With the S7000 surface you can choose the control for the end-user through custom layouts and user permissions.
