**PA Systems**  
**Foreground Music Systems**

**BE-S12** The BE-S12 is a high power, high efficiency subwoofer system featuring single 12-inch transducers with 4" voice coil and 220mm magnet designed to provide high output sub bass response in a compact bass reflex enclosure, ideally for low frequency augmentation in conjunction with two way full range loudspeaker system for commercial or home theatre application. The BE-S12 is made of high quality durable MDF and plywood coated with black paint and a rugged steel grille. Included are pole mount socket for satellite speaker mounting and NL4 input connectors. System requires using with electronic crossover.
