

XW15A
15" Two-Way,
Full-Range Passive
Concert Stage Monitor

Key Features:

- **Ring-Mode Decoupling / RMD™**
- **ND6 3" Diaphragm HF Compression Driver for Very High Output**
- **EVX155 15" Woofer with 4" Voice Coil and RMD™**
- **80° x 55° Coverage Pattern**
- **Rugged, 13-Ply Ultracompact Enclosure**
- **Neutrik Speakon® Paralleled Pass-Through Connectors on Both Ends of Enclosure**
- **Integrated Handles on Both Ends of Enclosure**
- **55° Stage Monitor Angle**

General Description:

The Electro-Voice® Xw15A full-range, two-way, floor monitor loudspeaker system is part of the Electro-Voice X-Array™ series and is intended for high-level sound reinforcement in fixed-installation and touring-sound applications. The Xw15A is a full-range biamped floor monitor speaker system which may be used with the Electro-Voice Dx38 digital crossover, the Klark Teknik DN9848 or other high-quality, signal-controller system. For low-frequencies, the Xw15A uses the EVX155 woofer. The EVX155 features a 4.0-inch voice coil with high-excursion capability for maximum low-frequency output. The cone uses Kevlar for maximum strength and internal damping. For high frequencies, the Xw15A uses the ND6-16, a 3-inch diaphragm 1.4-inch-exit neodymium compression driver for very high output. Its unique one-piece, geometrically optimized titanium dome and suspension combined with its high-energy neodymium magnetic motor provide maximum efficiency and precise control of the diaphragm motion. The compression driver is coupled to an 80° x 55° horn. This flat-front, constant-directivity horn is based on the Electro-Voice HP series, and is geometrically optimized for performance from 1,250-20,000 Hz. The Xw15A is constructed of 18-mm void free, 13-ply plywood shell which is extremely rigid. This high-strength enclosure is sprayed with a resilient, textured black finish for a professional appearance. The Xw15A enclosure incorporates a 55° concert stage monitor angle. The flush-mounted, integrated handles on both ends of the enclosure make transportation easy.

Technical Specifications:

Freq. Response ¹ (-3 dB):	55 Hz - 18 kHz
Freq. Range ¹ (-10 dB):	46 Hz - 20 kHz
Max Calculated SPL:	127 dB Cont. Avg., 133 dB Peak
Coverage:	80° x 55°
LF Power Handling:	600W Continuous, 2400W Peak
HF Power Handling:	75W Continuous, 300W Peak
LF Sensitivity:	99 dB, 1W/1m
HF Sensitivity:	110 dB, 1W/1m
LF Impedance:	8 ohms (Nominal)
HF Impedance:	16 ohms (Nominal)
LF Transducer:	EVX155 15" (381mm) Driver, 8 ohms
HF Transducer:	ND6-16 3" (76mm) Diaphragm Comp. Driver, 16 ohms
Crossover Frequency:	Use Recommended Parameters ²
Connectors:	Neutrik Speakon® NL4 Paralleled Pass-Through Connectors on Both Ends of Enclosure
Enclosure Material:	13-ply Birch plywood w/EVCoat™
Grille:	16 GA steel
Dim (H x W x D):	25.4" x 18.0" x 13.4" (644 x 457 x 340 mm)
Net Weight:	62.5 lbs (28.4 kg)
Shipping Weight:	71.8 lbs (32.6 kg)
